

Radio station K-LOVE is important to me because it provides much needed positive music and spiritual focus any time I tune in to it. It provides me with solutions to daily living issues, answers questions about living a moral life and adds to my personal enjoyment. If K-LOVE were to be displaced by an LPFM service, my community would lose out on the positive encouragement provided by the station's music and information. We have many other areas represented by other stations. K-LOVE is top notch in it's representation of Christian music and values. I believe it is in the public interest to support radio stations such as K-LOVE, which provide strong positive morals and values messages to our society.
